YALE 7,10,7,10
 6½mm (sideways)
 Cat. No. 7

Identification of this has proved a problem. A well known make of door lock springs to mind. So far no evidence is available to support this notion.

K. Rymer Young has a card with the pencilled note "YALE & TOWNE MANUFACTURING Co. WILLENHALL (LOCKS)" which came from a collection he once purchased, and while most identities from this collection have proved correct, it could be that the identity is more conjecture than fact.

Only three members reported having copies.
